

CHAPTER FOUR

ORIGIN PROCEDURES AND TRADE FACILITATION

Section A - Origin Procedures

Article 401: Certificate of Origin

1. The Parties shall establish, no later than the date of entry into force of this Agreement, a Certificate of Origin for the purpose of certifying that a good being exported from the territory of a Party into the territory of the other Party qualifies as an originating good. The Certificate of Origin may thereafter be modified as the Parties may decide.
2. Each Party shall permit the Certificate of Origin to be provided to its respective competent authority in English, French or Spanish. Nonetheless, each Party may require the importer to submit a translation of the Certificate of Origin into a language required by its domestic law.
3. Each Party shall:
 - (a) require an exporter in its territory to complete and sign a Certificate of Origin for any exportation of a good for which an importer may claim preferential tariff treatment upon importation of the good into the territory of the other Party; and
 - (b) provide that where an exporter in its territory is not the producer of the good, the exporter may complete and sign a Certificate of Origin on the basis of:
 - (i) its knowledge of whether the good qualifies as an originating good, based on information in the exporter's possession,

- (ii) its reasonable reliance on the producer's written representation that the good qualifies as an originating good, or
 - (iii) a completed and signed Certificate of Origin for the good, voluntarily provided to the exporter by the producer.
- 4. Each Party shall permit a Certificate of Origin to apply to:
 - (a) a single importation of one or more goods into the Party's territory; or
 - (b) multiple importations of identical goods into the Party's territory that occur within a specified period not exceeding 12 months.
- 5. Each Party shall ensure that the Certificate of Origin is accepted by its competent authority for 4 years after the date on which the Certificate of Origin was signed.

Article 402: Obligations Regarding Importations

- 1. Except as otherwise provided in this Chapter, each Party shall require an importer in its territory that claims preferential tariff treatment for a good imported into its territory from the territory of the other Party to:
 - (a) make a written declaration, based on a valid Certificate of Origin, that the good qualifies as an originating good;
 - (b) have the Certificate of Origin in its possession at the time the declaration is made;

- (c) provide, on the request of that Party's competent authority, the Certificate of Origin and, if required by that competent authority, such other documentation relating to the importation of the good in accordance with the domestic law of the importing Party; and
- (d) promptly make a corrected declaration and pay any duties owing where the importer has reason to believe that a Certificate of Origin on which a declaration was based contains information that is not correct.

2. For the purpose of subparagraph 1(c), where the competent authority of the importing Party determines that the Certificate of Origin has not been completed in accordance with Article 401, the importing Party shall ensure that the importer is granted no less than five working days to provide the competent authority with a corrected Certificate of Origin.

3. Where an importer claims preferential tariff treatment for a good imported from the territory of the other Party:

- (a) the importing Party may deny preferential tariff treatment to the good if the importer fails to comply with any requirement under this Chapter; and
- (b) the importing Party shall not subject the importer to penalties for making an incorrect declaration if the importer voluntarily makes a correction of the declaration pursuant to subparagraph 1(d).

4. Each Party, through its competent authority, may require an importer to demonstrate that a good for which the importer claims preferential tariff treatment was shipped in accordance with Article 314 (Rules of Origin - Transit and Transshipment) by providing:

- (a) bills of lading or waybills indicating the shipping route and all points of shipment and transshipment prior to the importation of the good; and

- (b) where the good is shipped through or transhipped outside the territories of the Parties, a copy of the customs control documents indicating to that competent authority that the good remained under customs control while outside the territories of the Parties.

5. Where a good would have qualified as an originating good when it was imported into the territory of a Party, but no claim for preferential tariff treatment was made at the time of importation, the importing Party shall permit the importer, within no less than one year after the date of importation or for such longer period specified by the importing Party's law, to make a claim for preferential tariff treatment and apply for a refund of any excess duties paid as a result of the good not having been granted preferential tariff treatment, on presentation to the importing Party of:

- (a) a written declaration stating that the good was originating at the time of importation;
- (b) the Certificate of Origin; and
- (c) such other documentation relating to the importation of the good as the importing Party may require.

Article 403: Exceptions

A Party shall not require a Certificate of Origin for:

- (a) an importation of a good whose customs value does not exceed US\$1,000 or its equivalent amount in the Party's currency, or such higher amount as it may establish, except that it may require that the invoice accompanying the importation include a statement from the exporter certifying that the good qualifies as an originating good; or

- (b) an importation of a good for which the importing Party has waived the requirement for a Certificate of Origin,

provided that the importation does not form part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the certification requirements of Articles 401 and 402.

Article 404: Obligations Regarding Exportations

1. Each Party shall provide that:

- (a) on request of its competent authority, an exporter in its territory, or a producer in its territory that has provided a Certificate of Origin to that exporter in accordance with subparagraph 3(b)(iii) of Article 401, shall provide a copy of the Certificate of Origin to that competent authority;
- (b) where an exporter or a producer in its territory has provided a Certificate of Origin and has reason to believe that the Certificate of Origin contains or is based on incorrect information, the exporter or producer shall promptly notify in writing any change that could affect the accuracy or validity of the Certificate of Origin to every person to whom the exporter or producer has provided the Certificate of Origin; and
- (c) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party is originating shall be subject to penalties equivalent to those that would apply to an importer in the territory of the exporting Party that makes a false statement or representation in connection with an importation, with appropriate modifications.

2. Each Party may apply such measures as the circumstances may warrant where an exporter or a producer in its territory fails to comply with any requirement of this Chapter.

3. Neither Party may impose penalties on an exporter or a producer in its territory that voluntarily provides written notification pursuant to subparagraph 1(b) with respect to the making of an incorrect certification.

Article 405: Records

1. Each Party shall provide that an exporter or a producer in its territory that provides a Certificate of Origin in accordance with Article 401 shall maintain, for a minimum of 5 years after the date the certification was issued or for such longer period as specified in the Party's laws and regulations, all records necessary to demonstrate that the good for which the producer or exporter provided the Certificate of Origin was an originating good, including records concerning:

- (a) the purchase of, cost of, value of, shipping of and payment for, the exported good;
- (b) the purchase of, cost of, value of, and payment for all materials, including indirect materials, used in the production of the exported good; and
- (c) the production of the good in the form in which it was exported.

2. Each Party shall require an importer claiming preferential tariff treatment for a good imported into its territory to maintain documentation relating to the importation of the good, including a copy of the Certificate of Origin, for five years after the date of importation of the good or for such longer period as specified in the Party's laws and regulations.

3. Where a Party requires importers, exporters and producers in its territory to maintain documentation or records in relation to the origin of a good, in accordance with that Party's laws and regulations, it shall permit them to do so in any medium, provided that the documentation or records can be retrieved and printed.

4. A Party may deny preferential tariff treatment to a good that is the subject of an origin verification where the exporter, producer or importer of the good that is required to maintain records or documentation under this Article:

- (a) fails to maintain records or documentation relevant to determining the origin of the good in accordance with the requirements of the Chapter; or
- (b) denies access to such records or documentation.

Article 406: Origin Verifications

1. For purposes of determining whether a good imported into its territory from the territory of the other Party qualifies as an originating good, a Party may, through its competent authority, conduct a verification by means of:

- (a) verification letters that request information from the exporter or producer of the good in the territory of the other Party;
- (b) written questionnaires to the exporter or producer of the good in the territory of the other Party;
- (c) visits to the premises of an exporter or producer in the territory of the other Party to review the records referred to in paragraph 1 of Article 405 and observe the facilities used in the production of the good; or
- (d) such other procedures as the Parties may agree.

2. For purposes of verifying the origin of a good, the importing Party may request the importer of the good to voluntarily obtain and supply written information voluntarily provided by the exporter or producer of the good in the territory of the other Party, provided that the importing Party shall not consider the failure or refusal of the importer to obtain and supply such information as a failure of the exporter or producer to supply the information or as a ground for denying preferential tariff treatment.

3. Each Party shall allow an exporter or producer who receives a verification letter or a questionnaire pursuant to subparagraphs 1(a) and (b) no less than 30 days from the date of receipt of such letter or questionnaire to provide the information and documentation required or the completed questionnaire. On written request by the exporter or producer made during that period, the importing Party may grant the exporter or producer a single extension of the deadline for no more than 30 days.

4. Where an exporter or producer fails to provide the information and documentation required by a verification letter or fails to return a duly completed questionnaire within the period or extension set out in paragraph 3, an importing Party may deny preferential tariff treatment to the good in question in accordance with the procedures set out in paragraphs 15 and 16.

5. Prior to conducting a verification visit pursuant to subparagraph 1(c), a Party shall, through its competent authority:

- (a) deliver a written notification of its intention to conduct the visit:
 - (i) to the exporter or producer whose premises are to be visited,
 - (ii) to the competent authority of the Party in whose territory the visit is to occur, and
 - (iii) if requested by the Party in whose territory the visit is to occur, to the embassy of that Party in the territory of the Party proposing to conduct the visit; and
- (b) obtain the written consent of the exporter or producer whose premises are to be visited.

6. The notification referred to in paragraph 5 shall include:

- (a) the name of the entity issuing the notification;
- (b) the name of the exporter or producer whose premises are to be visited;
- (c) the date and place of the proposed verification visit;

- (d) the scope of the proposed verification visit, including specific reference to the good that is the subject of the verification;
- (e) the names and titles of the officials performing the verification visit; and
- (f) the legal authority for the verification visit.

7. Where, within 30 days of receipt of a notification pursuant to paragraph 5, an exporter or producer has not given its written consent to a proposed verification visit, the notifying Party may deny preferential tariff treatment to the good that would have been the subject of the visit.

8. The Party whose competent authority receives notification pursuant to subparagraph 5(a)(ii) may, within 15 days of receipt of the notification, postpone the proposed verification visit for no more than 60 days from the date of such receipt or for such longer period as the Parties may decide.

9. Each Party shall allow, when the exporter or producer receives notification pursuant to subparagraph 5(a)(i), the exporter or producer to, on a single occasion, within 15 days of receipt of the notification, request the postponement of the proposed verification visit for no more than 60 days from the date of such receipt or for such longer period as agreed to by the notifying Party.

10. A Party shall not deny preferential tariff treatment to a good based solely on the postponement of a verification visit pursuant to paragraphs 8 or 9.

11. A Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate two observers to be present during the visit, provided that:

- (a) the observers shall only participate as such; and
- (b) the failure of the exporter or producer to designate observers shall not result in the postponement of the visit.

12. Where a Party conducts a verification of origin involving a value test, “*de minimis*” calculation or any other provision in Chapter Three (Rules of Origin) to which Generally Accepted Accounting Principles may be relevant, it shall apply such principles as are applicable in the territory of the other Party.

13. Where the producer of a good calculates the net cost of the good as set out in Article 303 (Rules of Origin - Value Test), the importing Party shall not verify, during the time period over which the net cost is being calculated, whether the good satisfies the value test.

14. The Party conducting a verification shall provide the exporter or producer whose good is the subject of the verification with a written determination of whether the good qualifies as an originating good, including findings of fact and the legal basis for the determination.

15. Where a Party determines as a result of an origin verification that the good that is the subject of the verification does not qualify as an originating good, the Party shall include in its written determination under paragraph 14 a written notice of intent to deny preferential tariff treatment of the good.

16. A written notice of intent under paragraph 15 shall provide for no less than 30 days during which the exporter or producer of the good may provide, with regard to that determination, written comments or additional information that will be taken into account by the Party prior to completing the verification.

17. Where verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter Three (Rules of Origin), in accordance with the Party’s domestic law.

18. Where, in conducting a verification of origin of a good imported into its territory under this Article, a Party conducts a verification of the origin of a material that is used in the production of the good, the Party shall conduct the verification of the origin of the material in accordance with the procedures set out in paragraphs 1, 2, 3, 5, 6, 8, 9, 10, 11, 12, 13 and 20.

19. Where a Party conducts a verification pursuant to paragraph 18, the Party may consider the material to be non-originating in determining whether the good is an originating good where the producer or supplier of that material does not allow the Party access to information required to make a determination of whether the material is an originating material by the following or other means:

- (a) denial of access to its records;
- (b) failure to respond to a verification questionnaire or letter; or
- (c) refusal to consent, within 30 days of receipt of notification under paragraph 5, to a verification visit.

20. For the purposes of this Article, the importing Party shall ensure that all communication to the exporter or producer and to the Party of export be sent by any means that can produce a confirmation of receipt. The periods referred to in this article will begin from the date of such receipt.

Article 407: Uniform Regulations

1. The Parties may establish and implement, through their respective laws, regulations or administrative policies, Uniform Regulations regarding the interpretation, application and administration of this Chapter.

2. Each Party shall implement any modification of or addition to the Uniform Regulations within such period as the Parties may agree.

 - (b) that allow goods, and to the greatest extent possible controlled or regulated goods, to be released at the first point of arrival, without temporary transfer to warehouses or other facilities; and
 - (c) that allow importers to withdraw goods from customs before all applicable customs duties, taxes and fees have been paid. Before releasing the goods, a Party may require an importer to provide sufficient guarantee in the form of a surety, a deposit or some other appropriate instrument, covering the ultimate payment of the customs duties, taxes or fees in connection with the importation of the goods.
3. For these purposes, each Party shall base its examination and release procedures and its post-entry verification procedures on risk assessment principles, rather than examining each and every shipment offered for entry in a comprehensive manner for compliance with all import requirements. This shall not preclude a Party from conducting quality control and compliance reviews, which may require more extensive examinations.
2. The Parties shall cooperate to carry out an express and efficient release of goods. To this end, the Parties should take into account any certification made in the Party of export relating to the supply chain trade.

5. With respect to goods considered originating in accordance with Article 306 (Rules of Origin - Accumulation), the Parties may cooperate with a non-Party to develop procedures based on the principles of this Chapter.
